

## Parliamentarian World Call for the 'Tobin Tax'

### The campaign for a 'Tobin Tax' continues...

864 parliamentarians from 33 countries have signed the Parliamentarian World Call for the 'Tobin Tax'.

Last year, following the Earth Summit in Johannesburg and the International Conference on Financing for Development in Monterrey, the international community confirmed that it is imperative to find the necessary funding to guarantee universal access to all the essential elements of a decent quality of life, the ability to nourish oneself properly, access to drinking water, to education, and to medicines....

However, despite the good intentions of these declarations of, no new mechanism of financing was put in place to reverse the decrease in public fund budgets going to development aid and to pay for universal access to all global public goods.

It has never been so urgent to create a more equal world, a world where poverty is not the only future for millions of human beings. Peace and stability in the world are also at stake.

This is why the question of a global solidarity tax remains at the top of the

agenda. Globalisation creates wealth, but also a great deal of inequality. A 'Tobin Tax' could be the first tax of this new type, leading to others of this kind such as a tax on maritime activity.

We invite you to continue to spread the word about this appeal and to collect signatures.

## Appel mondial des parlementaires pour la taxe Tobin

### Le combat pour la taxe Tobin se poursuit...

864 parlementaires de 33 pays, ont signé l'Appel mondial des parlementaires pour la taxe Tobin.

L'année dernière, lors du Sommet de la Terre à Johannesburg, comme lors de la Conférence sur le financement du développement à Monterrey, la communauté internationale a affirmé la nécessité de trouver les financements nécessaires pour permettre l'accès de tous aux éléments essentiels d'une vie décente, pour pouvoir se nourrir, avoir accès à l'eau potable, à l'éducation, aux médicaments...

Mais, malgré les déclarations d'intentions, aucun mécanisme nouveau de financement n'a été mis en place pour enrayer la baisse l'aide publique au développement et permettre l'accès de tous aux biens publics mondiaux.

Jamais pourtant il n'a été plus urgent de créer un monde plus cohérent, un monde où la misère ne soit pas le seul avenir pour des millions d'êtres humains. La paix du monde est aussi à ce prix.

C'est pourquoi, la question d'un impôt de solidarité mondiale reste d'actualité. Comme celle de créer des instruments

pour lutter contre la spéculation et les paradis fiscaux. La mondialisation crée des richesses mais aussi beaucoup d'inégalités. La taxe Tobin pourrait être une première taxe d'un nouveau genre avant d'autres taxes comme une taxe sur le transport maritime ou les émissions de carbone.

Nous vous invitons à continuer à faire connaître cet appel et à le faire signer.

Carlos Carnero**

## Llamamiento mundial de los parlamentarios a favor de la tasa Tobin

### La campaña a favor de la tasa Tobin continúa...

864 Parlamentarios de 33 distintos países han firmado el Llamamiento mundial de los parlamentarios a favor de la implantación de la tasa Tobin.

El año pasado, tanto en la Cumbre de la Tierra en Johannesburg como en la Conferencia sobre la Financiación del Desarrollo en Monterrey, la comunidad internacional afirmó la necesidad de encontrar los recursos financieros necesarios para garantizar el acceso de toda la población a los elementos esenciales de una vida decente, para poder alimentarse, tener acceso a agua potable, a la educación, a los medicamentos...

A pesar de las declaraciones de buenas intenciones, no se estableció ningún nuevo mecanismo de financiación para frenar la reducción de los presupuestos de ayudas públicas al desarrollo y para financiar el acceso de toda la población a los bienes públicos mundiales.

Nunca antes había sido tan urgente crear un mundo más coherente, un mundo donde la miseria no sea el único futuro para millones de seres humanos. La paz y la estabilidad mundial bien se merecen este esfuerzo.

Esta es la razón por la que una tasa de

solidaridad mundial sigue estando de actualidad. La globalización crea riquezas y también muchas desigualdades. La tasa Tobin podría ser la primera de una nueva clase de tasas, como por ejemplo una tasa sobre las actividades marítimas.

Le invitamos que continúe dando a conocer este llamamiento y a promover su firma.
